## The difference we make

### Deep Sector Expertise

22 years of deep sector expertise in warehousing, primarily focused on F&B and industrial FMCG products and supporting equipment, and more

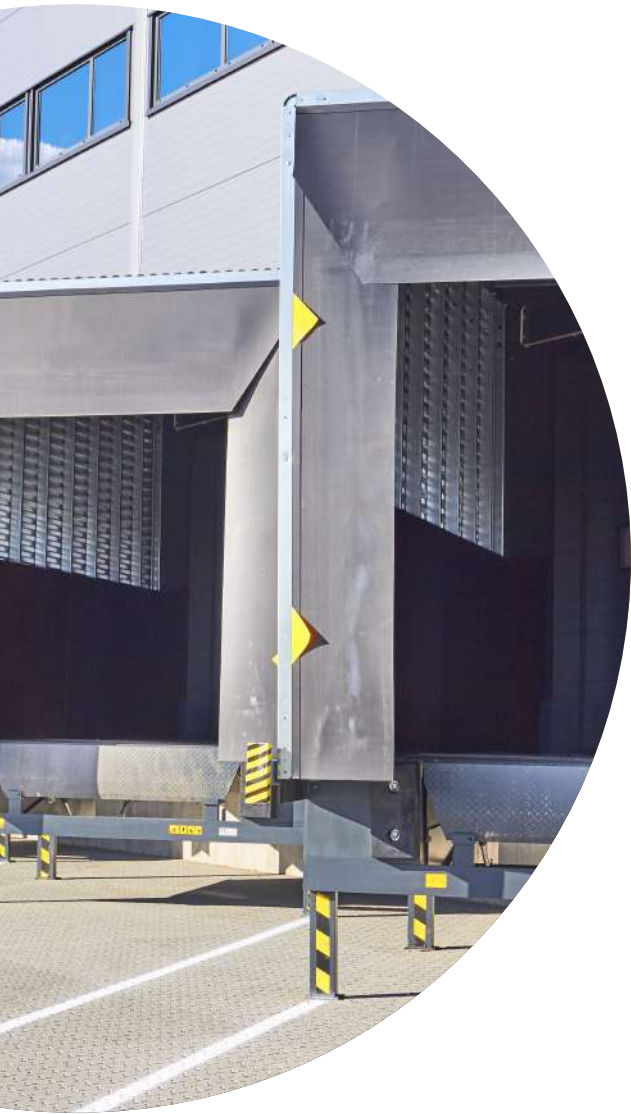

### Kuwait's leading F&B warehousing provider

TWREG stands as a leading F&B warehousing provider in Kuwait, specializing in tailored storage solutions for dry, cold, and frozen products. Our comprehensive logistics services encompass inventory management, order fulfillment, and detailed stock reporting, catering to wholesalers, retailers, and restaurant chains. By partnering with TWREG, businesses can enhance their supply chain efficiency and streamline their operations for optimal success.

### Long-term Client Relationship

TWREG collaborates with over 100 international and regional brands and business associates, ranging from small to large-sized companies. Our long-term approach to offer customized services to clients is by understanding the unique needs of each business. TWREG ensures that services are personalized to optimize efficiency and meet specific client requirements.

# Our

## 2PL – Second Party Logistics

Our 2PL warehousing service offers secure and sustainable infrastructure for businesses. We provide temperature-controlled storage options and scalable solutions suitable for both multinational corporations and small to large-sized businesses. Partnering with TWREG ensures first-rate warehousing services tailored to specific needs.

### TWREG's provisions

**Storage space:** Provided to clients as per contractual space and temperature requirements

**Docking ramps:** Available to client personnel for the purpose of loading / unloading cargo or stocks

**Site inspections:** Done jointly with the client on a regular basis to ensure storage areas and facilities are maintained as per contractual obligations

**Customer support:** We are here for you when you need us the most. Our dedicated account manager is available to listen and assist you every step of the way.

### Customer's responsibilities

**Stock transportation:** Entire transportation to and from our warehousing facilities shall be handled by the client or a 3<sup>rd</sup> party affiliate under the supervision of warehouse facility staff

**Stock loading/unloading:** Shall be handled by the client or 3<sup>rd</sup> party affiliate under the guidance and supervision of warehouse facility staff

**Stock check:** Count and reporting of stocks and storage items at our facilities

**Stock maintenance:** Care of client stock is to be done in line with HSE measures required at TWREG

# Services

## 3PL – Third Party Logistics

TWREG's 3PL solution is specifically tailored to meet the needs of entities within Kuwait's vibrant F&B industry. By leveraging an Oracle-based Warehouse Management System, TWREG ensures seamless and efficient management of clients' warehousing requirements. With TWREG's reliable 3PL solution, clients can have peace of mind, knowing that their warehousing needs are expertly taken care of.

### Standard services

Temperature-controlled storage facilities

Regular stock reporting

GRN & GIN issuance

Stock expiration notifications

Inbound & Outbound stock movement

**Our staff maintains client stocks and storage facilities in an organized and efficient manner by:**

Clear and consistent labeling of stocks upon arrival enables TWREG to efficiently place and retrieve items when needed. This streamlined process ensures accurate tracking and quick identification, leading to improved operational efficiency.

By leveraging industry expertise, TWREG optimizes key performance indicators (KPIs) related to stock movement, maintenance, and facility upkeep. We ensure that operations comply with regulations and meet industry standards. Through knowledge and experience, TWREG maximizes efficiency, effectiveness, and regulatory compliance in all aspects of operations.

Regular inventory stock movement assessments are conducted to ensure accurate stock reporting. We provide updates on stock movement, consignment details, issuing dates, and current stock balance. Expiry date alarms are used to manage items nearing expiration. These measures improve inventory tracking and stock management for businesses.
